

This exploded perspective view illustrates the assembly of a multi-layered device. The components are arranged vertically, showing their relative positions and how they fit together. The layers, from top to bottom, include:

- A top layer (105) with a top surface (107) and a bottom surface (108).
- A thin layer (198) with a top surface (190) and a bottom surface (194).
- A layer (180) with a top surface (182) and a bottom surface (186).
- A layer (170) with a top surface (172) and a bottom surface (173).
- A segmented layer (160) with segments (160a, 160b, 160c, 160d) and a bottom surface (162).
- A layer (150) with a top surface (152) and a bottom surface (150).
- A layer (140) with a top surface (142) and a bottom surface (140).
- A layer (130) with a top surface (134) and a bottom surface (132).
- A layer (120) with a top surface (122) and a bottom surface (123).

Additional components and features include:

- A small circular feature (192) on the bottom surface of layer 198.
- A small circular feature (182) on the top surface of layer 180.
- A small circular feature (186) on the bottom surface of layer 180.
- A small circular feature (173) on the top surface of layer 170.
- A small circular feature (162) on the bottom surface of layer 160.
- A small circular feature (152) on the top surface of layer 150.
- A small circular feature (142) on the top surface of layer 140.
- A small circular feature (134) on the top surface of layer 130.
- A small circular feature (132) on the bottom surface of layer 130.
- A small circular feature (133) on the bottom surface of layer 130.
- A small circular feature (132a) on the bottom surface of layer 130.
- A small circular feature (122) on the top surface of layer 120.
- A small circular feature (123) on the bottom surface of layer 120.
- A small circular feature (114) on the bottom surface of layer 120.
- A small circular feature (110) on the bottom surface of layer 120.
- A small circular feature (112) on the bottom surface of layer 120.
- A small circular feature (126) on the bottom surface of layer 120.
- A small circular feature (124) on the bottom surface of layer 120.
